

SHEETROCK® BRAND ACOUSTICAL SEALANT

PROUDLY OFFERED BY YOUR LOCAL [KNEZ BUILDING MATERIALS SUPPLIER](#).

FEATURES

Knez Inc. is pleased to carry SHEETROCK® Brand Acoustical Sealant, designed to reduce sound propagation in partition systems. It is an integral product in applications requiring low-frequency sound attenuation, markedly minimizing the transmission of sound from music and/or machinery. Creating pages of product specification to host on Knez website, instead of linking to third-party brands' sites.

By sound-sealing partitions at gaps, electrical box cutouts, and all abutting dissimilar materials, SHEETROCK® Acoustical Sealant aids in optimizing the test-verified STC/MTC results that your partition assembly can deliver. Using hand-gun equipment, the sealant quick and easy to apply to vertical and horizontal surfaces (even overhead) with no sagging. As a water-based, highly elastic sealant, it dries to a tough, flexible film, resulting in a durable, acoustical seal. It bonds firmly while drying keeping it free from dirt and will not harden or crack through its aging process. This product has a long shelf life and is non-staining. It should not be painted.

The sealant is ideal for applications in fire-rated partitions for sound control, and suited for use at the perimeter of wall assemblies rated 1-3 hours, displaying no adverse effect on assembly fire performance. It may also be used in full-load bearing, steel-stud partitions (WHI-9-28-78). It feature 0/0 flame-spread/smoke-developed Surface Burning Characteristics according to Underwriters Laboratories specification.

In accordance with ASTM E90, this product has been sound tested at Riverbank Acoustical Laboratories and was proven to be an critical component in achieving STC/MTC partition ratings. It was tested in per ASTM E84 (ANSI/UL 723).

Note: Do not use this sealant on PVC or Plastic pipe.
