## **BEADEX® LITE TAPING JOINT COMPOUND, READY-MIXED**

A LIGHTWEIGHT, EASY-TO-HANDLE COMPOUND FOR EMBEDDING JOINT TAPE.

PROUDLY OFFERED BY YOUR LOCAL [KNEZ BUILDING MATERIALS SUPPLIER](#).

### **PRODUCT FEATURES**

BEADEX Lite Taping Joint Compound, Ready-Mixed is a high-quality, ready-mixed joint compound for embedding paper tape. It bonds tightly even under humid conditions, accepting water quicker than conventional compounds. Weighing up to 35-percent less than conventional taping compounds, it is ideal for laminating gypsum panels to gypsum panels, patching plaster cracks, and for use on most gypsum board when maximum bond and crack resistance are required.

It offers easy workability and excellent slip and bond. It can be used directly from the container and needs minimal thinning, mixing, and retempering. Joint finishing is fast, easy, and smooth.

This product is fire rated and meets ASTM C475.
