Knez Inc. is proud to carry SHEETROCK TUFF-HIDE primer-surfacer, an excellent product that delivers an economical Level-5 finish, formulated to produce smoother, brighter, and more consistent results than drywall primer. Application to wallboards with professional airless spray equipment is quick and even. Sanding is not usually required.

The primer is given enhanced abrasion-resistant by its special vinyl-acrylic, latex-based coating. It consistently produces a high-quality finish which is suited for next-day painting. (It may be left unpainted on ceilings where a flat, white finish is wanted.)
