

## PLACOR® "BABY BULLNOSE" ½" RADIUS BULLNOSE FLEXIBLE ARCH & CORNER CAPS

PROUDLY SOLD AT YOUR LOCAL [KNEZ BUILDING MATERIALS SUPPLIER](#).

### MODEL 246 2-WAY OVERLAP CORNER CAP

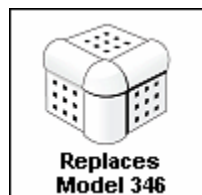

Those used to using metal corner bead or tape-on trim will notice immediately how much time this cap can save. Designed for use at orthogonal intersections of two corners (i.e., 90 degrees). ½" radius.

---

### MODEL 345 3-WAY OVERLAP CORNER CAP

Modeled directly after the popular Model 384 corner cap, this cap is perfect for use with tape-on trim and metal corner bead. Designed for use where three corners intersect orthogonally (i.e., at 90 degrees). ½" radius.

---

### MODEL 1046 FLEXIBLE BULLNOSE ARCH

This product makes the process of finishing arches and curved corners significantly easier. It is the most flexible arch bead available and is ideal for both convex or concave curves.
