

Trim-Tex® Bullnose Cleaning Tool, Miter Marker & Splicer

Proudly sold at your local [Knez Building Materials supplier](#).

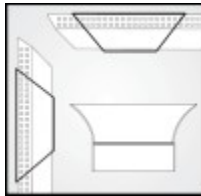

3/4" Bullnose Cleaning Tool

Cut down on sanding and unnecessary cleaning problems with this bullnose cleaning tool, designed to clean mud from 3/4" radius bullnose corners. Manufacturing from a strong polypropylene, the tool radius actually improves with use.

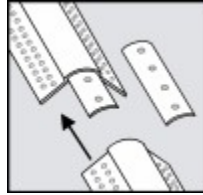

Bullnose Miter Maker

This product makes 90 degree inside corners a breeze. Simply lay the Miter Marker over the bead, mark a line, and cut along the line. Available to suit 3/4" or 1 1/2" radius bullnose beads.

3/4" Bullnose Splicer

Using the splicer is the definitively quick and easy way to perfectly align two bullnose beads. Simply snap the splicer into place. Use on long stretches or where straight and archway beads come together.
