

**Trim-Tex® Flex-Grid Angle, Ceiling Bead, Stick Up Trim, Drive In Bead**  
Proudly sold at your local [Knez Building Materials supplier](#).

**Flex-Grid Angle**

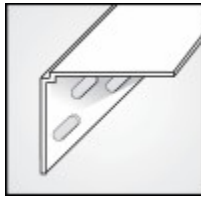

Trim-Tex's revolutionary way to finish circular columns and recessed circular, freeform and floating columns. This product is available in the two most widely used sizes of 7/8" and 9/16". Suitable for finishing columns with a radius of 5 1/2" or larger.

---

**Mud On Ceiling Bead**

This is the ideal solution when trying to match a standard drop ceiling grid system in color and style. Manufactured from a rigid vinyl, this bead installs quickly and is easy to handle. Produced with a 7/8" protecto mask included.

---

**Drive In Bead**

Similar to Stick Up Trim, the Drive In Bead lets you finish office partition walls swiftly and economically. Installation is easy: simply fit one flange into the space between the ceiling and the wall and "drive in" the flange until the second flange sits flush with the wall.
