

## Trim-Tex® Magic Corner and Inside Corner Beads

Proudly sold at your local [Knez Building Materials supplier](#).

### Magic Corner

The Magic Corner's groundbreaking design can be used from 90 degrees inside to 90 degrees outside. The soft center flexes easily and acts as a control joint. Available in 10 ft. lengths or 250 ft. roll to eliminate splices in large rooms - simply cut to your desired length.

---

### Adjustable Inside Corner Bead

This adjustable bead is designed to fit angles ranging from 90 degrees to 135 degrees. It will eliminate cracks and straighten lines.

---

### 90 Degree Inside Corner Bead

This bead is ideal in locations with crooked framing or where drywall corners are imperfectly aligned. The self-aligning design results in perfectly straight, sharp lines on every corner.
