

TRIM-TEX® SHADOW BEAD, SPECIAL L BEAD AND SUPER SEAL J BEAD

PROUDLY SOLD AT YOUR LOCAL [KNEZ BUILDING MATERIALS SUPPLIER](#).

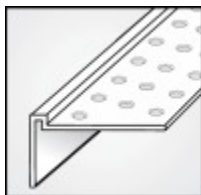

SHADOW BEAD

Shadow Bead is delivers a revealing effect when butting up against door jambs, base trim, ceilings, light boxes and other interior architectural components. Available in numerous widths. Other widths can be specially ordered; contact your Knez representative for more information.

7/16" SPECIAL L BEAD

Specially designed for use with any 1/2" deep Shadow Bead to create a floating reveal. This has the same effect as the regular reveal and additionally acts as a superior ultimate expansion joint in commercial installations.

SUPER SEAL J BEAD

A reveal-type J Bead designed with flanges made of rigid vinyl and flexible vinyl fins that compress upon being installed. The fins form a seal, reducing sound propagation, replacing caulking, and providing a structural stress relief at the panel's edge.
